\*Technical Electives are selected from upper division mathematics, chemistry, physics and engineering courses and must be pre-approved by the department advisor. Courses in Nuclear Engineering other than 500, 502 and 598

may also be used as technical electives.

## Full Status Progression

A lower-division student may apply for progression to upper division after completing CHEM 122/123 or 128\*, CHEM 132/133 or 138\*, MATH 132/14/147\*, MATH 142/148\*, MATH 231/237, EF 151/157\*, EF 152/158\*, and PHYS 231\*, with a grade of C or better in each, and an overall GPA of at least 2.5.

## Provisional Status Progression

Students who have completed CHEM 122/123 or 128\*, CHEM 132/133 or 138\*, MATH 132/141/147\*, MATH 142/148\*, MATH 21/237, EF 152/158\*, and PHYS 231\* with a grade of C or better and have an overall GPA between 2.0 and 2.5 may apply for provisional status. The granting of provisional status is based on the availability of space in departmental programs after full status students have been accommodated. Provisional status students are required to demonstrate their ability to perform satisfactorily in upper-division will be dropped from departmental programs after full status is departmental curves.

## Nuclear Graduation Requirements

Students are required to maintain a cumulative grade point average of at least 2.0 in all nuclear engineering courses taken at the Unversity of Tennessee, Knoxville used to satisfy the graduation requirement. No more than four (4) credit hours of required nuclear engineering courses in which a C- or lower is the highest grade earned may be counted toward graduation. This is in addition to the university's graduation requirements. Students are strongly recommended to meet with their facult advice revery semester.

Students also have opportunities for an Honors Concentration and/or a five year BS/MS program. See the Undergraduate Catalog for details and requirements.

Volunteer Core courses highlighted in light orange.
